

DRIFTWOOD STAIRS

& walkways

Project Complete

We are thankful for this completed difference-making project! Through God's timing, the driftwood walkways are now safer, more beautiful, and less maintenance.

Two walkways were also completed! The lodge walkway allows more room for walking while guests are on swings. The sidewalk to the Lake Bathhouse has also been completed in concrete creating a seamless passageway.

The builder wants to donate a new pavilion sitting area on Driftwood hill this spring!
